*'Students are at the heart of everything we do'*

Bulletin 16 - Term 2, Week 7 - 6th June 2019

## PRINCIPAL NEWS

Dear Sacred Heart Community,

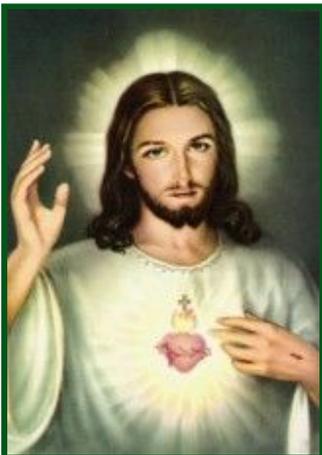

For those of you who have not caught up on our exciting news, the fairies in our school ground (the fairy tree is in a corner of our playground) have requested a letter box be installed so that our students can write to them.

Pauline and her husband met their demands two weeks ago and a lovely red letterbox was installed. Last week the fairies were inundated with letters from our excited students and were kept busy over the weekend writing replies.

(Michael and Amelia placing their letters in the letterbox)

Our first week of lunch orders was very popular and it appeared many of our students enjoyed the chance for a warm meal. To help Hana who has to take the orders to Parade on Wednesday morning before going to work. We now ask that **orders be placed on a Tuesday instead. Students will bring their lunch orders to class and place them in the blue cooler bags provided per classroom. Thank you to Hana who has provided these.** Please note that Parade Preston will not be open on **Wednesday 19th June** for Student free day and so lunch orders will not be available.

Our school and parish feast day (**The Feast of the Sacred Heart**), will be celebrated at school on Friday 21st June with some special events and then with a combined parish and school Mass on Sunday 23rd June at 10.30am. As with past parish/school celebrations of the Eucharist, we would love to see as many students with their families in attendance as possible. A letter will go home early next week requesting students to be involved in the Mass through participation in our choir, or helping with readings and prayers.

## PRINCIPAL NEWS (continued)

The school dinner dance will again take place this year. Those of you who have attended in recent years, will know it is a great night for our families to get together and enjoy a night of socialising. The dinner dance will take place on **Friday 15th November**. The Parents and Friends Committee are already planning for the night. Please stay tuned for further announcements and in particular a call for donations for a silent auction and raffle prizes on the night.

Jodie (mum of Nikita) is holding a **Nutrimetics** fundraiser, for our school dinner dance on Friday, 21st June at 9.15am in the staffroom. All parents and friends are invited to Jodie's presentation. Jodi is kindly donating all proceeds to our school dinner dance fundraising. If you would like to visit the Nutrimetics website in advance of this day, the details are [www.nutrimetics.com.au](http://www.nutrimetics.com.au).

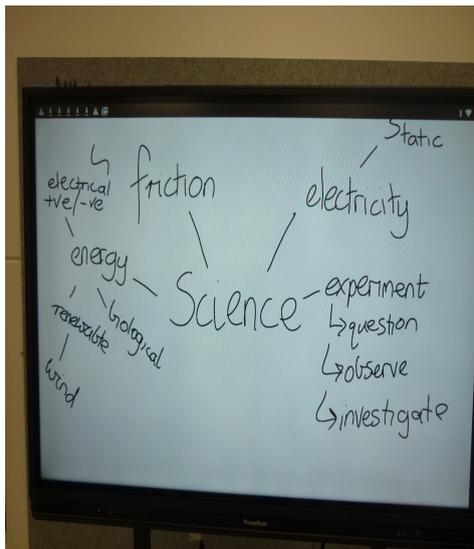

Congratulations to Oscar, one of the winners of our **'Sacred Heart Good Samaritan Award'**, awarded at our last assembly, receiving his certificate this week.

On Wednesday, we had three students represent our school and sports district, in the Division Cross Country event at Bundoora Park. Joel, Sienna and Aleisha had earned the right to compete, because of their great result in the District event held three weeks ago. All three students ran very well. Congratulations to Joel who finished 17th, Sienna who finished 2nd and Aleisha who finished 1st in their respective races. Sienna and Aleisha have now earned the right to compete at the region championships to be held later this term.

Yours sincerely,  
**Mark Tierney**  
**Principal**

## SCIENCE UPDATE IN THE MAKERSPACE

Our student's comments:

It was fun doing Science. I was feeling very excited to learn how to turn on the LED lights. - **Tanuj**.

Making the LED lights come on was really an amazing experience to have. Some of us found out that you don't need the clippers to light up the LED lights because you can just connect the black and red wires to the battery pack. - **Ryan**.

In Makerspace, we were we learnt how to light up two light bulbs and we learnt lots more about electrical things. - **John D.V**.

We did some experiments. One was learning how to turn a light bulb on. I found it all very interesting. - **Ria**

In Science, we brainstormed some words on who Scientists are and what they do. We can all be Scientists by experimenting new things. - **Ankita**.

I thought it was real cool last Friday. We were working with actual electricity. - **Ekansh**.

In the Makerspace room, we were studying our Science topic for Inquiry. We discovered how to turn on a light with batteries using the alligator cords. - **Sylvie**.

In Science, we got some lights and turned them on by putting the alligator clips onto the wires. When the lights came on, I felt happy that it worked.- **Caitlin**.

When we did Science in the Makerspace, we learnt about electricity as well as good and bad energy. We learnt that everyone can be a Scientist if they are interested in things. I think that Science is fun and interesting because we get to experiment with different things in groups and also by ourselves.- **Nikita**.

## P - 2 VILLAGE NEWS

Fantastic to again see so many parents and friends of the P-2 Village at last Tuesday's gathering. The focus of this week's Gathering was our learning dispositions, Maths and Science.

Congratulations to the students in the photo who have displayed the dispositions of Being Respectful and Self Managing.

In Maths we have been flying Planes to see how far we can fly them. Some planes flew **LONGER** than others.

Here is Harper using informal units to measure objects. She used blocks to see how long her pencil was. "My pencil is seven blocks long."

We also looked at some Science and informed the parents that our focus has been on **OBSERVING** Science in our environment. We have planted basil, we looked at water as a gas, a liquid and a solid and we made honeycomb. Planting basil was good, watching water steam was fun but making **HONEYCOMB** was the best!

# CALENDAR OF EVENTS

## TERM 2 - 2019 23rd April - 28th June

Monday 10th June	Queen's Birthday Public Holiday - no school
Friday 21st June	Reconciliation Mass with Parade (11.50am)
Friday 21st June	Nutrimetics Fundraiser (9.15am)
Sunday 23rd June	Feast of the Sacred Heart Mass (10.30am)
Friday 28th June	Last day of term 2 (1.00pm finish)

## TERM 3 - 2019 15th July - 20th September

Tuesday 23rd July	Parent/Teacher interviews (students finish at 1.00pm)
Tuesday 6th August	School Closure Day
Saturday 17th August	Bunnings BBQ
Wednesday 21st August	Life Skills Parent Night - <i>Raising A Resilient Child/Overcoming Anxiety</i>
Sunday 15th September 10:30am	First Communion Mass
Friday 20th September	Peace Mass with Parade College

**School Dinner Dance Friday 15th November**

## EXTEND BEFORE & AFTER SCHOOL CARE

### EXTEND UPDATE.

Monday	Tuesday	Wednesday	Thursday	Friday
Art - Sewing Cooking - potato salad	Cooking - Pasta Science Experiment - Jelly Bean Color	Science Experiment - Lemon Volcano	Healthy Wraps Art - Weaving	Cooking - Fried Rice Art - Dream Catchers

### The Extend Superstar is...

Jasmine Mantis for always helping Educator and showing interest in all activities.

### What's Been Happening?

This week we have been exploring a range of science, cooking and art activities. A highlight was conducting science experiments and learning about chemical changes after a reaction occurs to form carbon dioxide and sodium citrate

which causes the liquid to fizz and bubble. Students love to help in the kitchen learning how to cook and learn about nutrition, health and safety awareness. They also loved creating and learning how to sew buttons on felt pieces, cross stitch and creating some great weaving techniques using wool making dream catchers.
